Re Kudigere water works

I have the honour to state that I inspected the water works at Kudigere on the 20th August 1945 along with the Assistant Engineer of II Sub Division. It was seen that the actual daily consumption of Crude Oil for the water works engines is two and a half gallons but three gallons are being taken into account. It was stated that half a gallon is added on account of leakages. I am of opinion that the municipality should not pay for the leakages of 15 to 20 gallons of oil every month even supposing that there is such a large leakage. The person who is in charge of the Crude oil should be held responsible for the leakage. Further it is learnt that the actual expenditure on establishment and repairs and spare parts is much less than what is being charged on the municipality. I have therefore advised the Kudigere Municipal Council to maintain the water works in future subject to the supervision by the officers of the Public Works Department.

Reason Responsibility for the leakage when unreasonably large may kindly be fixed

I have the honour to be
Sir
Your most obedient servant

Deputy Commissioner
Kadur District

G O No P W 5434 39 dated 26th March 1945

Bureau of Sanitary Engineering

Issues further instructions in regard to the transfer of the —— from the Public Health Department to the Public Works Department

---

READ —

Government Order No G 7367 8 —Sany 31 29 1 dated 18th December 1929 passing orders about the formation of the Bureau of Sanitary Engineering in the Health Department

2 Government Order No G 14053 106—Sany 31 29 29 dated 31st May 930 passing orders re establishment and duties of the Bureau of Sanitary Engineering of the Health Department

3 Government Order No P W 1223 96 dated 26th August 1944 directing that the Sanitary Bureau be transferred from the Public Health Department to the Public Works Department

4 Letter No 3346 dated 24th October 1944 from the Chief Engineer for Roads and Buildings

ORDER No P W 5434 39 DATED BANGALORE THE 26TH MARCH 1945

In Government Order No P W 1223 96 dated 26th August 1944 Government have ordered that the Sanitary Bureau Division be transferred to the Public Works Department The Chief Engineer for Roads and Buildings has submitted proposals for suitably reorganising the staff of the Division

2 The duties of the Division comprise —

(1) (*a*) Maintenance of water supply installations such as Kolar Gold Field and Mysore and of 31 smaller installations such as Arkalgud Konanur etc

(*b*) Preparation of schemes for water supply

(*c*) The sinking of bore well for water supply

(2) *Drainage* —Preparation and execution of schemes for drainage sewerage etc

(3) Installation and maintenance of sanitary fittings

(4) Town planning slum clearance etc

(5) Anti malaria engineering works

(6) Construction of rural and urban sanitary privies bore hole latrines mutton stalls slaughter house etc

3 (i) The water supply installations at Kolar Gold Field and Mysore will be transferred to the Public Works Department and the Executive Engineer Water Supply Division Bangalore will be in charge

(ii) As regards the water supply schemes now in direct control of the Bureau of Sanitary Engineering the municipalities that are meeting the full cost of maintenance may be addressed regarding taking over of the maintenance of such schemes under their direct control the general supervision however being vested in the Public Works Department

(iii) New schemes for water supply to towns will be prepared by the engineering staff of the Division and the Director of Public Health will be consulted on the suitability of the source of water supply and the arrangement for purification of water

No P W 5434 39 DATED 26TH MARCH 1945

(iv) All works costing Rs 5 000 and below will be carried out by the Executive Engineers of the Divisions in whose jurisdiction the scheme lies

4 (i) *Drainage* —The schemes for drainage of towns and villages will be prepared by the Sanitary Division and will be sent to the Director of Public Health for his opinion particularly in regard to the treatment and the final disposal of the effluent

(ii) All works of drainage costing Rs 20 000 and below will be executed by the Executive Engineers of Divisions in whose jurisdiction such works lie works requiring special experience in sanitary engineering being carried out by the Sanitary Division

5 (i) *Anti Malaria Engineering Works* —The schemes will be prepared by the Sanitary Division in close consultation with the Health Department

(ii) The Director of Public Health will during his inspections, examine the works in progress and communicate his opinion to the Chief Engineer for suitable action in the matter The Executive Engineer of each Division will carry out these works

6 *Sanitary Fittings and Water Supply Installations to Buildings* —All works under sanitary and water supply installations connected with any particular building will be carried out by the agency in charge of that building the estimates however being got prepared by the Sanitary Division

7 *Town Planning* —In view of the constitution of a Committee for Town Planning under a Director of Town Planning (Chief Engineer for Roads and Buildings) all works connected therewith shall be transferred to the Government Architect who will take instructions from the Director of Town Planning The Director of Public Health being a member of the Committee will offer his opinion on the town planning schemes that come up for consideration before the Committee

8 In regard to other miscellaneous work such as construction of mutton stalls slaughter houses bore hole latrines sanitary privies etc the Executive Engineer, Sanitary Division will invariably send the estimates to the Director of Public Health for his opinion before submitting them to the Chief Engineer for sanction

9 Separate orders will issue in regard to the proposals for establishment that have been submitted by the Chief Engineer for Roads and Buildings In the meantime the Director of Public Health is requested to transfer all the works and the entire establishment both executive and clerical connected with the Bureau of Sanitary Engineering to the Public Works Department

10 The Chief Engineer for Irrigation will have the administrative control of water supply schemes both maintenance and execution and the Chief Engineer for Roads and Buildings will be in administrative control of all other items of activities of the Bureau of Sanitary Engineering referred to above

Bangalore

Sir,

Subject :- Improvements to the Water Supply in Mudigere Town

Adverting to your letter No L 13609 dated 18th February 1948 on the above subject, I have the honour to state that the original estimate for Rs 432/- in respect of the work was subsequently revised to Rs 539/- by the Sanitary Engineer, Bureau of Sanitary Engineering A sum of Rs 107/- was required to be deposited for completing the works

It is reported by the President, Mudigere Municipality that the said sum has been made available to the Sanitary Engineer, when I have requested to expedite the execution of the improvement works The information regarding the necessity or otherwise for a well at the place has been called for

The Mudigere Municipal Council have resolved on 27-1-1948 to meet the sum of R 539/ out ofthe closing balance of the Municipality for the year 1947-48, as there is no budget provision I therefore request you kindly to obtain sanction of Government to the expenditure of Rs 539/- being met out of the closing balance for 1947-48 as resolved by the Municipal Council

Necessary resolution copies are enclosed herewith

Re - Improvements to the water supply in Kadigenahalli Town

With reference to your letter No A3 C 4973/16-47 dated 22nd April 1948, I have the honour to state that the requisite funds for the above work have been placed at the credit of this office and the work is arranged to be taken up. The work will be completed expeditiously

The work consists in fixing up sluice and other valves on the distribution system with other allied works such as valve castings etc, in order to improve the water supply distribution in certain portions of the Town. There is no need for a separate well at the place in view of the improvements to be effected in this behalf
